Dear members

The last few months have been quite eventful. We have had a reasonably festive Durga Puja, a somewhat restrained Diwali, and for many, a Bhratri Dwitita after a gap of one year. The lights of Chandannagar nearly matched its glitz of yore during the Jagadhatri Puja and the Gods have been kind, and we thankfully did not find our hospitals flooding with new Covid victims after the extended periods of gaiety.

This has also been a period of IOA and WBOA election process and the rescheduled hosting of WBOACON at ITC Royal. Our dynamic secretary, Dr. Partha Sarkar and his merry band of organisers achieved the impossible in a very short notice, and made it a meeting to relish and remember. I was unfortunate to miss the event physically, due to family commitments, but could watch all the activities live on YouTube from 13000 KM away.....first time this has ever happened in our annual meetings.

The IOACON in Goa was a resounding success and our state had a good outing, and had reasons to rejoice. Our Past President, Dr. Shibaji Choudhury had the honour being the recipient of the prestigious Golden Jubilee award of the Indian Orthopaedic Association and delivered his oration on his original work on the treatment of fracture of neck of the femur in patients below 60 years of age. To add to our cup of joy, Prof. Ananda Kumar Pal won the Joy Patankar gold medal, Dr. Md. Nasim Akhtar, the R. C. Rallan gold medal and Dr. Prashanth Arya, the Dr. P. Kanabar gold medal. That is a lot of gold medals for one IOACON and we are proud of you!

We, unfortunately, had to settle for a silver medal in the IOA annual state award, but the fact that we had a large contingent of faculty and podium speakers came as a salve and a welcome departure from several previous meetings and augers well for the new generation. We have to build on this and go from strength to strength.

The WBOA journal is another source of pride and our energetic editor, Dr. Sanjay Keshkar, has published the second edition; and has given us the heartening news, that, articles are flowing in from our members and we are at the cusp of being indexed as well.

With this I conclude the last newsletter of 2021 and wish you and all your near and dear ones a very happy new year.

Yours sincerely

Dr. Kanchan Bhattacharyya

President WBOA

West Bengal Orthopaedic Association

Merry Christmas and Happy New Year

We have a great quarterly event of WBOA as well as IOA. We have regular scientific activities.

Professor Dilip Kr. Misra

1935 - 2021

Professor Misra, the one and all Dilipda for his contemporary, and universally Sir for all his juniors, both the words emanating out of deep and honest feelings, had breathed his last on 11th of Dec, 2021.

Born on 1935, he joined his medical curriculum in 1953 at R.G.Kar Medical College, to which he took a great pride. He finished his M.B.B.S. in 1958 and MS in general surgery in 1966. Subsequently, MS Orthopaedic surgery being introduced by the University of Calcutta as a separate speciality, he took to MS Orthopaedics in 1975. By then, for his outstanding contribution in the field of experimental surgery, he had been conferred with D.Sc by the University too.

His service life started at Bankura Sammilani Medical College in 1969 and had a span of 20+ years in which he served in the capacity of Professor of Orthopaedic Surgery. Spread over multiple institutions like Bankura Sammilani Medical College, Burdwan Medical College, B.C.Roy Hospital for crippled children, Calcutta Medical College, and Calcutta National Medical College, his final years of service was in association with his beloved Alma Mater R.G.Kar Medical College wherefrom he retired voluntarily.

During these productive years of successful service to the ailing mass, his largest contribution to the field of Orthopaedics remains to be a regiment of skilled and trained surgeons whom he built up with his unparallel training.

The other contribution perhaps is imparting a holistic approach to the treatment of a patient, which taught us to treat not a fractured limb, but a patient with a fracture whose social and economic status needs consideration in deciding a treatment plan.

A great philanthropist, he had been associated with Bharat Sevasram Sangha and served in their free clinic for several years.

Known for his unmatched sense of humour and love for the people, he will be ever remembered as a giant in orthopaedics and as a great soul too.

Dr. Bhaskar Das

হে মোর হৃদয়ের বিজন আকাশে তোমার মহাসন আলোতে ঢাকা সে....”

My earliest memories as a child was to stay awake and wait for my father as he used to come home once a month from his work place at Bankura Medical College. The train used to reach Howrah in the early hours of the morning and the mood of the whole family changed dramatically for a day or two. As I grew older the relationship changed to a fearful respect, though he never had to establish his authority with his voice.

He came back to Kolkata in 1973. He became busy with his work at RG Kar and later started private practice. His students used to visit our house and they would have hours of discussion, which I gathered later, was about their postgraduate thesis. I would befriend them and fly kites or play football with them. Our period of anxiety started in 1980, when he was transferred as a professor to Burdwan Medical College. He used to wake up early in the morning every day to catch a train from Howrah at 6:30, to reach work on time. He came back in the afternoon and attended his clinic near Girish Park. This continued for more than three years. I can imagine the hard work he had to do for those three and half years. In 1984 he was transferred to Medical College, Kolkata. By that time, I was old enough to understand the work he does, though my interest was not in medicine. My father never influenced me to join medicine as he knew biology was my weak link. But when I was in a dilemma whether to join medicine at CNMC or engineering at Ranchi, he tactfully coerced me to stay in Kolkata and join the MBBS course. He was happy but he never expressed his joy. You could understand from his subtle behaviour.

His hobby was to buy books, mostly medical and instruments for surgery. The first gift I received from him immediately after I joined MBBS was Gray's Anatomy and Samson Wright's Applied Physiology. I still possess those precious gifts and wish to pass them on to my next generation. He continued to buy books for me at various stages. Goodman and Gilman's pharmacology, Walter and Israel General Pathology and Schwartz's Principles of Surgery are a few of them. I must mention here, my father was transferred to National Medical College, the year I joined medicine. He became very popular with his colleagues and students for his surgical skills, teaching and unmatched wit. One can understand my predicament. What saved my life was the separate college campus at CNMC.

When I joined MS (ortho), I was allowed to observe him in the theatre for the first time. I can only compare his knife with the paint brush of an artist. Not a single unnecessary move, no unintended cut and the tissues would fall back to their original position once the job is done. Surgery was never a battle but a ballet. The performance was effortless, yet so perfect that I wish I could replicate in my practice. I had the opportunity to remove few metal works implanted by my father. Each time I was surprised to see the fascia and muscle planes preserved as if untouched. In his practice he was always up to date and sometimes even way ahead of his times.

His passion was to buy good quality instruments. He had more instrument sets and power tools than any corporate hospital at that time. He strived to provide the best outcome for his patients and he understood the importance of quality tools. He had the knack to identify not so common but useful tools as well. Mueller's compression device and broken screw removal instruments are few of them to name. His instruments are still my prized possessions.

The other passion, as I mentioned before was to buy books. You name any medical book and he had it in his library. It was a dream for a postgraduate student. I do not have enough space to name them. All editions of Campbell's from his PG days, all editions of Rockwood and Green from late eighties, Tachdjian's and Sharrard's Paediatric Orthopaedics, Enneking's bone tumour surgery and many more are there in his library. He subscribed to OCNA, JBJS and Orthopaedic year books for many years. He had more books and journals than any teaching hospital at that time. His students used to visit his library regularly to read or to borrow those books.

He continued to work actively till December 2001, when all of a sudden, the knife was taken away from him by a cerebrovascular accident. He probably had a secret wish to pass the baton slowly and gradually to me. Unfortunately, that didn't go the way he imagined. He started seeing patients again after recovery, but he was never the same person.

He always followed strict principles, which he set for himself. He was upright, always held his head high and never compromised to any unreasonable demands. He led by examples and imprinted them in the mind of his disciples. Whatever little I am, is all because of him and his principles. He is the "wind beneath my wings".

Indian orthopaedic association has always been a foundation of unity. In such an organisation healthy competition should always prevail. Which is the pillar of growth for any organization. One of such rare incident happened in WBOACON 2021 at kolkata. West bengal orthopaedic association have made a stage of friendship, unity and education. On 3rd of December after the inaugural ceremony of WBOACON, Just elected President of IOA Dr. Ram Chadda and his close contender our very own Dr. Swarnendu Samanta felicitated each other and shared bond of friendship by shaking hands and hugging each other.

This is one of a very rare incident and first ever in the history of IOA. We thank our President and Secretary and all office bearers of IOA for having faith on WBOA and for all the unconditional support

Dr Sibaji Chaudhuri

On behalf of West Bengal Orthopaedic Association we gladly announce that our past President and renowned Orthopaedic Surgeon of South Kolkata Dr Sibaji Chaudhuri has won the prestigious Golden Jubilee Award of Indian Orthopaedic Association for the year 2021.

This Oration award was started in 2005 by the parent body of Orthopaedic Surgeons of India for original work in the field of Orthopaedics. This is for the first time someone from our state is receiving this award.

Dr Sibaji Chaudhuri has won this award for his extensive work in the treatment of Femoral Neck Fracture in patients less than 60 years of age.

Dr Sibaji Chaudhuri, is presently working as Professor in the Department of Orthopaedics Surgery, KPC Medical college and Hospital, Kolkata.

The part of the femur bone immediately below the head is described as neck of femur. This neck of femur breaks frequently and more so in elderly persons.

In case of young patients, the fractures are mostly caused by significant amount of trauma and blood supply to the femoral head were cut off in many of the cases. Standard methods of fixation for these fractures lead to avascular necrosis of the femur head (AVN) even after union in many cases, which ultimately requires Total Hip Replacement (THR), in near future.

In order to prevent the avascular necrosis (destruction of femur head due to damage in blood supply), Dr. Chaudhuri, modified a technique of 'Muscle Pedicle Bone Grafting', where a muscle along with its bony attachment part used to be transferred to the head of femur, after fixing fracture with fixation device.

This vascularized pedicle (muscle with intact bony attachment), provides uninterrupted blood supply to the femoral head and the patients were saved from a morbid condition, which caused detrimental impact on the socioeconomic condition of the young patients.

Dr Chaudhuri is performing this operation for last 25 years

This is a great honour and matter of pride for West Bengal, that someone from our state received this award for the first time. He was awarded this prestigious award on 23/12/2021 at recently concluded Annual Conference of Indian Orthopaedic Association, at GOA in presence of a packed auditorium of Orthopaedic Surgeons from all over India.

IOA EXECUTIVE COMMITTEE (NEW)

IOA INLAND TRAVELLING FELLOW 2021-22

Our stay in Kolkata as IOA Travelling Fellows was a highly humbling experience, not only in terms of learning new skills and gaining new knowledge, but also in terms of social interactions. We were awestruck by the sheer dedication of all the faculties of various institutes and hospitals who taught us so many things. Efforts of all of them and especially Dr Rajeev Raman sir and Dr Partha Sarthi Sarkar sir was really commendable in making the arrangements in such a short span of time. Talking about the faculties, we are highly thankful to Dr Vikash Kapoor sir and Dr. Anirban Chatterjee sir from Medica hospital; Dr. Rajiv Chatterjee sir and Dr. Saumitra Misra sir from Manipal hospital; Prof. (Dr.) A. S. Dutta sir, Prof. (Dr.) A K Pal sir and the whole team from IPGMER; Prof. (Dr.) Kaushik Banerjee sir, Dr Sunit Hazra sir, Dr Mainak Chandra sir and the team of RG Kar; Dr Swarnendu Samanta sir from Peerless hospital; Dr. Ranjan Kamilya sir, Dr. Manabendranath Basu Mallick sir, Dr Ravi Bhardwaj sir from Apollo; Dr Rakesh Rajput sir, Dr Ananda Mandal sir and Dr Sengupta sir from CMRI; Dr Rajeev Raman sir from JBCH- all of them showed us great surgeries related to their subspecialities, discussed good cases with us and cleared whatever doubts we had. Also thankful to Dr. Kiran Mukhopadhyay sir, Dr Anindya Basu sir and Dr. Soumyajit Basu sir for making last moment arrangements for the pure spine guy Dr Srinivas.

Not only that, the social interactions and hospitality was marvellous !! We had get-together and mouth-watering dishes almost every night. All in all, it was a journey that was quite fulfilling both professionally and personally, something that we would cherish forever. Please forgive me for having forgot any names. Sincere thanks from all four of us to WBOA and IOA for the wonderful gesture.

I also thank the Editorial Board members, EC Members and all our Members for support.

ISSN (Online): 2772-915X

Website: www.ijos.in

You must be remembering that the First Issue (January – June, 2021) was published in scheduled time and was released by Prof. D.P. Baksi (The Chief Patron of our Journal) during Inaugural Function of WBOACON – 2021. It was a glorious moment for all of us.

name of **International Journal of Orthopaedic Surgery**. It is semi-annual Journal, available in both versions (Online & Print). The website of the Journal is www.ijos.in and the Article submission site is <https://review.jow.medknow.com/ijos> with new platform / dashboard.

We have already got the ISSN Number for Online version (Online ISSN:2772-915X) and now working hard for ISSN Number for print version which is expected to be received in 1st week of January. We are also in a process for indexation of the Journal in DOAJ (recognized by NMC / MCI) and expected to get it done in coming days.

Now, the next Issue will be an Special issue on “Trochanteric Fracture” and expecting in March 2021. The Editorial Board is requesting each one of you to please contribute for this Special Issue by submitting articles (Original article, Review article, Case reports). Looking forward for support from all corners (Respected Seniors, Friends & My Dear Juniors).

At the end I assure you that Editorial Board of the Journal together with EC of WBOA will work hard and left no stone unturned to make this Journal Indexed.

Thank You,

Long live WBOA Journal, Long live WBOA.

To
Shri Narendra Modi Ji
Honorable Prime Minister of India

Sub: Urgent NEET PG 2021 Counselling

Respected Sir,

The whole world is preparing itself for the third wave of CORONA VIRUS Pandemic and is strengthening its Public Health Care System by rapidly adding on new Doctors and Paramedical Staff.

INDIA HAS OBSERVED ZERO YEAR IN MEDICAL EDUCATION (No Admission to post graduation courses this whole year 2021). Only 2 Batches are doing the work of 3 Batches, since so many months, and working for 36 to 48 hours at a stretch. Therefore it is our earnest request to conduct NEET PG Counselling at the earliest so as to enable the fresh batch: of Resident's Doctors to join duty to strengthen our National Health Care System.

At the same time we also condemn the attack on the protesting doctors at our capital by Govt agencies.
Warm Regards,

Dr. Kanchan Bhattacharyya
President, WBOA
